## SOFT SKILLS

Problem-solving

Time Management

Adaptability

Teamwork

Communication

## EDUCATION

### C# Web Developer

SoftUni

01/2022 - 12/2023

Sofia

#### Courses

- ▣ C# + .Net Framwork, OOP, ASP.NET Core, EF Core, MS SQL, Front-End JS, HTML, CSS, Algorithms and Data structures
- ▣ Diploma [↗](#)

## PERSONAL PROJECTS

### Bicycle Management eXtreme- BMX (11/2023 - 01/2024)

- ▣ ASP.NET Core RESTful API + React JS.
- ▣ A project created in a team of 4 developers as part of an internship ("Intern & Team Lead Academy - SoftUni 2023-2024").
- ▣ The application serves the full functionality of a bicycle manufacturing enterprise, as well as its management.
- ▣ Technologies used to build: Back - End: C#, ASP.NET Core, Entity Framework Core, MS SQL; Front - End: React JS, JavaScript, HTML, CSS.
- ▣ GitHub repo : [https://github.com/airfanBG/SoftuniBMX/tree/Release\\_0.1.0](https://github.com/airfanBG/SoftuniBMX/tree/Release_0.1.0) [↗](#)

### Vehicle Manager Platform (07/2023 - 08/2023)

- ▣ ASP.NET Core MVC Project created as a thesis to complete the course of C# Web developer at SoftUni
- ▣ Vehicle-Manager-Platform (VMP) is a web application for managing waybills of vehicles and tracking upcoming maintenance checks. It supports the automatic calculation of fuel costs for a certain vehicle and setting notifications for upcoming periodic costs.
- ▣ Technologies used to build: Back - End: C#, ASP.NET Core, Entity Framework Core, MS SQL; Front - End: Razor pages, Bootstrap, HTML, CSS
- ▣ GitHub repo: <https://github.com/kvinceto/Vehicle-Manager-Platform> [↗](#)

### Portfolio site (01/2024 - 01/2024)

- ▣ React JS Application. Project created as my personal portfolio.
- ▣ Technologies used to build: Front - End: React JS, Java Script, HTML, CSS.
- ▣ GitHub repo: <https://github.com/kvinceto/portfolio> [↗](#)
